Wholesale to Leadershield Partner cost / month — retail spread is your margin	\$59/mo	\$175/mo	\$300/mo	\$600/mo

Starter (powered by Lead Titan) provides lead generation and automated email outreach sequences and integrates with the merchant's existing CRM, but includes no native CRM and only Basic Brand Intelligence; Growth Foundation and above include a native AI CRM and Advanced Brand Intelligence. Lead generation is credit-based and flexes with verification depth (1 credit per base lead, +1 email, +1.5 phone); usage beyond included pools is billed as overage. Guided onboarding is a one-time add-on on Revenue Growth System & Revenue Scale AI.

Package Overviews

What each plan does for the business — and who it's built for.

Starter		LEAD GENERATION	Retail TBD
Starter is an affordable, lead-generation-first entry point powered by Lead Titan. It delivers a monthly pool of real-time verified lead credits and automated email outreach sequences with generous send volume, plus basic Brand Intelligence (core brand assets only) and integration with the CRM a business already uses — note that Starter has no native CRM of its own. It's a low-commitment way to start filling the pipeline, and a natural on-ramp to the full platform, where Brand Intelligence becomes advanced and a native AI CRM, chatbot, and visual email come built in.			
Growth Foundation		VISIBILITY & STABILITY	\$397/mo
Growth Foundation gets a business organized, visible, and responsive so it stops leaking the opportunities it already has. The platform begins by learning the brand inside and out with advanced AI Brand Intelligence — not just logos, colors, and voice, but a full catalog of the business's products and services, target-audience personas, and SEO intelligence — then puts that to work across a native AI-integrated CRM and a 24/7 AI chatbot that captures and organizes every inbound lead. Professionally designed AI visual emails keep customers engaged and win back past ones. It's the stable, professional foundation every growing business needs before it scales.			
Revenue Growth System		REVENUE GROWTH & OPTIMIZATION	MOST POPULAR \$697/mo
Revenue Growth System turns that foundation into an active engine for new revenue — and it's where most businesses land. On top of everything in Growth Foundation, it adds real-time verified lead generation that brings in fresh prospects, lead-capture forms, automated email sequences and reactivation so follow-up runs itself, and AI social content published straight to Meta. Darwin, the AI Chief of Staff, executes tasks across the platform on the owner's behalf, while an Ask AI assistant answers everyday business questions on demand and richer analytics sharpen what's working. The result is a predictable, repeatable growth system that generates opportunities and converts them with far less manual effort.			
Revenue Scale AI		AI-DRIVEN SCALE & OPTIMIZATION	BEST VALUE \$1,497/mo
Revenue Scale AI is the full AI marketing-and-sales department, built for businesses that want to scale without adding headcount. It includes everything in Revenue Growth System and adds the AI Caller for automated outbound calls that book meetings and appointments, AI-managed paid advertising across search, social, and display, a dedicated AI ad designer, and ad insights to optimize spend. Social reach expands to LinkedIn and X, lead and CRM capacity grow, and AI blogs plus a full template library accelerate everything. This is where AI does the heavy lifting of converting and scaling — turning marketing into a self-running revenue operation.
